MONDOMIX SEAL FLUID

A FOOD GRADE LUBRICANT

Mondomix Seal Fluid has been formulated specially for lubricating mechanical seals on Mondomix machines.

It is formulated from highly refined medicinal grade white oils; it contains no unsaturated or aromatic hydrocarbons and is free from vegetable oil derivatives and genetically modified substances.

It meets the chemical requirements of Ph.Eur, BP, USP and FDA 21 CFR 172.878. It complies with the Mineral Hydrocarbons in Food Regulations S.I.1966 No.1073 (addition to food not more than 0.2%).

PHYSICAL DATA

Appearance	Clear transparent water-white liquid
Odour	None
Solubility	Insoluble in water. Soluble in hydrocarbon solvents
Flash Point (COC) °C	Above 165
Pour Point	Below 8
Viscosity cSt @ 40°C	14.0 – 16.0
Density kg/l	0.83 – 0.87
Carbonizable Substances	Passes all Pharmacopoeas
Sulphur Compounds	None

Manufactured in Great Britain by Slipstream
